

KraneShares Bosera MSCI China A Share ETF

Investment Strategy:

KBA is benchmarked to the MSCI China A Inclusion Index which is designed to track the progressive partial inclusion of A shares in the MSCI Emerging Markets Index over time. The index is designed for global investors accessing the A shares market using the Stock Connect framework and is calculated using China A Stock Connect listings based on the offshore RMB exchange rate (CNH).

MSCI has completed the initial 5% China A-Share Inclusion into the MSCI Emerging Markets Index. China A-Shares are projected to comprise 14.7% of the MSCI Emerging Markets Index upon full inclusion.¹

With \$1.9 trillion benchmarked to the MSCI Emerging Market Index², full inclusion of Mainland Chinese equities could see significant flows into the securities KBA owns today.

KBA Key differentiators

- The Index adheres to MSCI's Global Investable Market Index (GIMI) rules – ensuring all holdings pass a transparent, rules-based inclusion criteria
- MSCI provides comprehensive historical fundamental data on the Index
- KBA is co-managed by Bosera Asset Management; headquartered in Shenzhen, China. Bosera has over \$110 billion in AUM³ and is one of the largest Chinese asset managers by assets under management
- KBA provides access to the Shanghai and Shenzhen Stock Exchanges - which are traditionally not available to US investors - via the Renminbi Qualified Foreign Institutional Investor (RQFII) and Stock Connect Programs

The performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when sold or redeemed, may be worth more or less than their original cost and current performance may be lower or higher than the performance quoted. For performance data current to the most recent month end, please visit www.kranehares.com.

ETF shares are not redeemable with the issuing fund other than in large Creation Unit aggregations. Instead, investors must buy or sell ETF Shares in the secondary market with the assistance of a stockbroker. In doing so, the investor may incur brokerage commissions and may pay more than net asset value (NAV) when buying and receive less than net asset value when selling. The NAV of the Fund's shares is calculated each day the national securities exchanges are open for trading as of the close of regular trading on the New York Stock Exchange ("NYSE"), normally 4:00 P.M. Eastern time (the "NAV Calculation Time"). Shares are bought and sold at market price not NAV. Closing price returns are based on the midpoint of the bid/ask spread at 4:00 P.M. Eastern Time (when NAV is normally determined).

Index returns are for illustrative purposes only. Index performance returns do not reflect any management fees, transaction costs or expenses. Indexes are unmanaged and one cannot invest directly in an index.

Carefully consider the Funds' investment objectives, risk factors, charges and expenses before investing. This and additional information can be found in the Funds' full and summary prospectus, which may be obtained by visiting www.kraneshares.com. Read the prospectus carefully before investing.

Investing involves risk, including possible loss of principal. There can be no assurance that a Fund will achieve its stated objectives. The Funds are subject to political, social or economic instability within China which may cause decline in value. Fluctuations in currency of foreign countries may have an adverse effect to domestic currency values. Emerging markets involve heightened risk related to the same factors as well as increase volatility and lower trading volume.

The ability of the KraneShares Bosera MSCI China A ETF to achieve its investment objective is dependent on the continuous availability of A Shares and the ability to obtain, if necessary, additional A Shares quota. If the Fund is unable to obtain sufficient exposure due to the limited availability of A Share quota, the Fund could seek exposure to the component securities of the Underlying Index by investing in other types of securities. The Fund may invest in derivatives, which are often more volatile than other investments and may magnify the Fund's gains or losses.

Although the information provided in this document has been obtained from sources which Krane Funds Advisors, LLC believes to be reliable, it does not guarantee accuracy of such information and such information may be incomplete or condensed.

The KraneShares ETFs are distributed by SEI Investments Distribution Company (SIDCO), which is not affiliated with Krane Funds Advisors, LLC, the Investment Adviser for the Fund.
