

## KraneShares MSCI One Belt One Road ETF

### Investment Strategy:

The KraneShares MSCI One Belt One Road ETF (ticker: OBOR) seeks to provide investment results that track the price and yield performance of the MSCI Global China Infrastructure Exposure Index. The Index aims to identify potential beneficiaries of the One Belt One Road initiative based on how their geography, revenue, and sector attributes align with the broad theme. OBOR seeks to capture the economic growth and monetize the potential upside for the companies involved in China's One Belt One Road initiative.

### OBOR Initiative Facts:

- The One Belt One Road (OBOR) initiative, established by President Xi Jinping of China, is an extensive long-term infrastructure initiative modernizing the original Silk Road trading routes. The initiative has two core components:
  - Economic land belt: linking countries by land along the ancient Silk Road through Central Asia, West Asia, the Middle East, and Europe.
  - Maritime road: linking countries by sea along the Eastern coast of Africa through the Suez Canal into the Mediterranean.
- China has signed cooperation agreements with 88 countries and international organizations<sup>1</sup> representing 65% of the global population and 34% of global GDP<sup>2</sup>.
- The OBOR initiative could see upwards of \$6 trillion in investment in the coming years and is poised to reshape global trade<sup>3</sup>.

### OBOR ETF Highlights:

- Includes countries who may benefit from the OBOR initiative, such as China, Russia, Singapore, Malaysia, Israel, and others.
- Includes sectors of primary focus to the OBOR initiative, such as industrials, utilities, materials, financials, and energy.
- Benchmarked to MSCI, a global leader in international indexing

ETF shares are not redeemable with the issuing fund other than in large Creation Unit aggregations. Instead, investors must buy or sell ETF Shares in the secondary market with the assistance of a stockbroker. In doing so, the investor may incur brokerage commissions and may pay more than net asset value (NAV) when buying and receive less than net asset value when selling. The NAV of the Fund's shares is calculated each day the national securities exchanges are open for trading as of the close of regular trading on the New York Stock Exchange ("NYSE"), normally 4:00 P.M. Eastern time (the "NAV Calculation Time"). Shares are bought and sold at market price not NAV. Closing price returns are based on the midpoint of the bid/ask spread at 4:00 P.M. Eastern Time (when NAV is normally determined).

Index returns are for illustrative purposes only. Index performance returns do not reflect any management fees, transaction costs or expenses. Indexes are unmanaged and one cannot invest directly in an index.

Investing involves risk, including possible loss of principal. There can be no assurance that a Fund will achieve its stated objectives. The Funds are subject to political, social or economic instability within China which may cause decline in value. Fluctuations in currency of foreign countries may have an adverse effect to domestic currency values. Emerging markets involve heightened risk related to the same factors as well as increase volatility and lower trading volume.

Narrowly focused investments typically exhibit higher volatility. The ability of the KraneShares MSCI One Belt One Road ETF to achieve its investment objective is dependent, in part, on the continuous availability of A Shares and the ability to obtain, if necessary, additional A Shares quota. The fund may invest in derivatives, which are often more volatile than other investments and may magnify the Fund's gains or losses. The fund is non-diversified.
