What were the Fund costs for the period?

(based on a hypothetical \$10,000 investment)

Fund Name	Costs of a \$10,000 investment*	Costs paid as a percentage of a \$10,000 investment
KraneShares 2x Long PDD Daily ETF	\$7	1.27%

\* Costs shown not annualized. If the Fund had been open for the full fiscal year, costs shown would have been higher for the period ended.

How did the Fund perform in the period?

From the Fund’s inception date on March 11, 2025, to the Fund’s fiscal year end on March 31, 2025 ("Period"), the Fund delivered the following returns:

Fund	NAV Return (%)	Market Price Return (%)	Underlying Stock Return (%)
KPDD	-1.12	-0.80	0.31 <sup>(a)</sup>

(a) PDD Holdings (NASDAQ: PDD)

The Fund seeks daily investment results, before fees and expenses, of 2 times (200%) the daily percentage change of the ADR of PDD Holdings (NASDAQ: PDD) (the “Underlying Stock”).

Because of the daily reset, the Fund’s performance for a multi-day Period will not be precisely 200% of the performance of the Underlying Stock, particularly during volatile markets. During the Period, market volatility and the performance of the Underlying Stock materially contributed to the performance of the Fund. PDD is an online commerce company operating globally. As PDD is exposed to cross-border commerce, uncertainty regarding potential protectionist trade policies led, in part, to share price volatility in PDD during the Period. The Fund’s return is negative for the Period, despite the slightly positive return for the Underlying Stock, because of market volatility.
