(a) Bloomberg Electric Vehicles Index

The KraneShares Electric Vehicle & Future Mobility Index ETF seeks to provide investment results that, before fees and expenses, correspond generally to the price and yield performance of the Bloomberg Electric Vehicles Index (the "Underlying Index"). The Underlying Index seeks to measure the performance of companies that are engaged in the production of electric vehicles, their components, or other initiatives that may change the future of mobility. This includes electric vehicles, autonomous driving, lithium and/or copper production, lithium-ion/lead acid battery production, hydrogen fuel cell manufacturing, and/or electric infrastructure businesses.

The global electric vehicle ("EV") and future mobility ecosystem outperformed global equity markets, as measured by the MSCI ACWI Index, during the period. EVs and future mobility companies benefited from strong adoption trends, especially in China, a softer-than-expected political backlash against pro-EV policies in the United States, and an oil price shock that sparked speculation it could accelerate the electrification of transportation worldwide.

Krane Funds Advisors, LLC (“Krane” or the “Adviser”), the investment adviser to the Fund, entered into an agreement whereby its officers and employees, among others, through KFA Two Holdings, LLC, will acquire a majority interest in the Adviser from China International Capital Corporation (USA) Holdings Inc., a wholly-owned, indirect subsidiary of China International Capital Corporation Limited (the “Transaction”). Consummation of the Transaction will, under the Investment Company Act of 1940, result in the automatic termination of the Fund’s existing investment advisory and, if applicable, sub-advisory agreements. In anticipation of the Transaction, the Board approved new advisory and, if applicable, sub-advisory agreements on terms identical to the existing agreements (other than effective and termination dates), subject to shareholder approval of the new advisory agreement. The new sub-advisory agreement will take effect in reliance on a manager-of-managers exemptive order. To ensure continuity of management pending shareholder approval of the new advisory agreement, the Board also approved interim advisory and, if applicable, sub-advisory agreements, effective upon closing of the Transaction, each with terms substantially identical to the current agreements, to remain in effect for up to 150 days while shareholder approval is sought.
